

Download myStory Designer

myStory Designer is available as a free download for both 32-bit and 64-bit versions of Windows Vista and Windows 7, and in a 32-bit version for Windows XP. If you are not sure which version of Windows you have, here's how to check!

How to find out if your computer is running a 32-bit or 64-bit version of Windows

If your computer is running Windows 7 or Windows Vista, do the following:

1. Click the Start button, right-click Computer, and then click Properties.
2. Under System, you'll see the system type (32-bit or 64-bit operating system).

If your computer is running Windows XP, do the following:

1. Click Start, right-click My Computer, and then click Properties.
2. If "x64 Edition" is listed under System, you're running the 64-bit version of Windows XP. If you do not see "x64 Edition" listed, then you're running the 32-bit version.

The following steps may vary, depending on the internet browser you are using.

If you are using Internet Explorer...

Internet Explorer may open a screen that looks like this

Click 'Save' to begin the download.

If you see a warning in that tells you **The publisher of myStory Designer couldn't be verified**, there's no cause for concern. It's just that IE doesn't know myStory, and so just wants to make sure you recognise and trust us before you save the download. It is safe to click 'Run'.

If you are using Firefox as your internet browser...

Firefox will open up a download box like this

Simply click 'Save File' to begin the download.

If you are using Google Chrome...

Chrome will open a box like this, at the bottom of your computer screen and begin the download automatically. Too easy!

Regardless of which browser you are using, once the download is complete you should see a prompt to open the download folder or run the downloaded program file. If you don't see this, don't worry! Just go to your Downloads folder and double-click on the **myStoryDesigner.exe** file to begin the installation.

It will look something like this...
